Thursday 11th January 2018

Dear Parents

Today we are pleased and proud to confirm that CORE Education Trust, the sponsor of Nansen Primary School, will be joined by a further four more secondary schools across Birmingham from March 2018. The CORE network of schools will increase to a total of 6 schools. This news follows an 18 month period of preparation in which we have been able to develop and grow the capacity of the Trust to ensure we are appropriately equipped to offer the children and families in all our schools the best possible education based on their respective local needs.

We remain incredibly proud of our achievements as the sponsor of Nansen. When we founded CORE in 2015, it was with the specific objective to reimagine what could be achieved at Rockwood and Nansen following some challenging times. We exceeded all expectations in removing the schools from Special Measures and ensuring that Nansen is now ready to reverse a generation of under-achievement.

Our mantra has always been to look forward, not back and to put the children and their needs first. We have been aspirational for our pupils and this will continue to be the case as Nansen now becomes part of a formidable group of schools. This will add capacity and potential to Nansen and will support the next positive phase of its development.

We are fortunate to have an exceptional Leadership team at Nansen. They continue to lead the school with great integrity and enthusiasm. They currently contribute to CORE Education Trust as valued and respected senior leaders.

You will not notice any immediate changes in the day to day running of the school. Any questions you may have about this can be emailed to us at welcome@core-education.co.uk

Yours sincerely

Adrian Packer and Ammo Talwar
CEO & Chair
